765.05.099.000 TITANIUM CLOSED COURSE USE ONLY

SMC/R 08-11

AKRAPOVIC SLIP-ON SILENCER

The Akrapovic system has been conceived for KTM riders who are looking for the best exhaust systems available on the aftermarket and who know how optimum performance can best be achieved. The system has a hexagonal silencer, perfectly suited to the sharp lines of the KTM. With removable noise reduction insert. Can be fitted with both original header and factory titanium header 765.05.907.100. Looking for even more performance? Add a corresponding EVO engine performance kit on pg.39.

TUNING KITS PAGE 38 / 39

756.05.099.200 TITANIUM CLOSED COURSE USE ONLY
DUKE 08-11

EVOLUTION SILENCER

This exhaust system is specially developed for the Duke. This means light weight and maximum performance gains. Mounting is only possible when used in combination with the factory header 756.05.907.100. Looking for even more performance? Add a corresponding EVO engine performance kit on pg.38.

HANDLEBAR

DO YOU KNOW that KTM handlebars must withstand very elaborate and specially developed test cycles before they come to market?

The facts:

- » All KTM handlebars are made from EN AW 7010 T6 aluminum
- » 28.5 mm diameter in the clamping area
- » 22.15 mm diameter in the lever area
- » Position markings for simple setting
- » Large variety of sizes and shapes

BRAKE BLEEDER SCREW

Bleeding the brakes or changing the brake fluid is completed in a matter of seconds, even on your own: When changing the brake fluid or bleeding the system, simply release the screw on the check valve by a half turn and pump the brake fluid through the system with the brake lever. The valve prevents air from forcing its way back into the system on releasing the brake lever. Supplied with an anodized dust cap. 770.13.920.000 for rear brake caliper SM 07-09, SMC 08-14, DUKE 08-11 plus front and rear brake caliper ENDURO 08-14. 770.13.920.100 for front brake caliper SM 07-09, SMC 08-14 and DUKE 08-14.

WAVE-TYPE BRAKE DISC 320 MM

Whether it be punishing missions on the racetrack or touring with passenger and luggage, our WAVE-type brake discs supply the same high level of deceleration in every situation with outstanding controllability.

- » Brake disc outer ring: rustless, high-performance brake steel
- » Black or orange anodized aluminum inner ring
- » Floating mounting: no distortion, no brake judder
- » No fading, consistent braking performance at the highest level
- » More braking power (+25% braking power) thanks to materials from the world of racing
- » Less hand force for the same braking power

2K REAR SPROCKET ORANGE

If you're looking for the ultimate in quality and performance, this sprocket is the one for you!

- » High-strength steel teeth
 - » Aluminum inner ring
 - » Joined together permanently with high-strength rivets
 - » At least three times longer service life than other aluminum rear sprockets
 - » Only half as heavy as conventional steel rear sprockets
- Another benefit: longer service life for the entire drivetrain

- 590.10.051.052 / 04 Z52

ALUMINUM REAR SPROCKET

The orange rear sprocket is already a true classic that has established itself with really strong arguments and many benefits:

- » Manufactured from high-strength 7075-T6 aluminum, the strongest aluminum in the world
- » Originally developed for the aerospace industry and then adopted by the best rear sprocket manufacturers
- » The chain runs smoothly, straight as a die and true, because it's ground level to an accuracy of 0.002 mm
- » Free from vibration – therefore the highest power transmission efficiency
- » No small stones or dirt particles can become stuck under the chain thanks to angled recesses between the teeth
- » 7% lighter with the same strength – hence greater acceleration and improved braking
- » All these properties mean slower wear and extreme durability
- » Orange anodized with a permanent, organic and environmentally friendly pigment

- 503.10.800.118 / 04
- 5/8 x 1/4 (520)

CHAIN Z-RING

601.12.929.100

ALUMINUM TOP CASE 38 L

Rugged aluminum top case to match the 38L side cases. Enough space to store a helmet and additional items. Shown with optional lock set 601.12.924.050. Capacity: approx. 31 cm x 40 cm x 30 cm. Carrier plate 601.12.929.050 required for mounting.

600.12.025.100 / 30

CASE SET

Two watertight, practically indestructible top-loading side cases with two integrated 3-liter water containers in the side wall. Double-wall plastic construction throughout. Sturdy metal locks on the top and sides. Can be mounted to the Quicklock carrier system or the standard case carrier system (Available separately).

- » Capacity: approx. 2 x 32 L; 48 cm x 27 cm x 36 cm.
- » Case carrier system 600.12.020.100
- » Quicklock carrier kit 601.12.020.100
- » Matching inner bag 601.12.027.070

601.12.020.100

FOR 600.12.025.100/30 03-12

QUICKLOCK CARRIER KIT FOR CASES

The inconspicuous, slim case carrier for removing/fitting the cases in a matter of seconds. The carrier kit contains the Quicklock carrier system (which remains on the bike) and a case adapter (for ADVENTURE plastic case 600.12.025.100/30, black aluminum case 601.12.024.200/601.12.025.200 – cases not included; please order separately).

600.12.025.090

FOR 600.12.025.100/30

LUGGAGE HOOK SET

With the help of these luggage hooks, sleeping bag, insulation mat, etc. can be attached to case set 600.12.025.100/30.

601.12.924.100

ALUMINUM CASE 38 L

Durable, waterproof individual cases made of 1.5 mm thick aluminum without edge welding seams. Rounded edges and corners with extremely robust plastic protectors on the corners. Can be used on the right or left. Dual function latch hinges for quick access or releases completely for lid removal. Suitable for the luggage rack system 600.12.020.100 (not included). Bags pictured with optional security lock set 601.12.924.050. Volume: approx. 38 liters; 44 x 24 x 39 cm – Matching inside pocket = 601.12.024.070.

600.12.027.400 / 30

TOPCASE 42 L

ADVENTURE top case with a storage capacity of 42 l. Carrier plate 600.12.027.450 is also required for mounting. Backrest 600.12.027.452 and inside pocket 601.12.027.070 are available as optional accessories.

600.12.027.450

CARRIER PLATE FOR TOP CASE

For top case 600.12.027.400/30.

601.12.024.060

CASE CARRYING BELT

With these two straps, you can comfortably carry your side cases into your hotel room or tent with you.

601.12.927.044

03-12

CARRIER PLATE FOR TOPCASE

For top cases 601.12.027.000.

601.12.027.000

ALUMINUM TOP CASE

38 l Volume. Optional inside pocket available: 601.12.027.070. Carrier plate 601.12.927.044 is required for mounting.

601.12.920.000

LOCK FOR QUICKLOCK CARRIER SYSTEM

Locks your Quicklock carrier system to the bike.

601.12.024.200

ALUMINUM CASE LEFT 37 L

This stylish, robust, rugged and watertight aluminum case is made from two ultra-strong materials: the sidewalls from high-strength aluminum; the corners from impact-resistant plastic. The two components are bonded together permanently and tightly by means of a special riveting process. The volume of the case is approx. 37 L.

- » Lock kit 601.12.923.050 not included in scope of supply (contains 7 locks for both cases, top case and GPS bracket)
- » Inner bag 601.12.024.070 available as an option

601.12.025.200

ALUMINUM CASE RIGHT 37 L

QUICKLOCK CARRIER KIT FOR CASES

756.12.978.100

UNIVERSAL REAR BAG/BACKPACK

This bag can be used as a rear bag on the carrier plate of your KTM or as a backpack. With the all-round zip fastener, the volume can be easily increased. The bag contains a rain cover, an additional small compartment and a rubber strap on the top for fixing jackets, gloves, etc.

600.12.978.000

REAR BAG

Bag with Quicklock system for easy mounting. The volume of the bag can be varied between 12 l and 18 l. Carrier plate 601.12.927.044 is also required for mounting.

620.12.027.052

BACKREST FOR TOP CASE 48 L

The optional backrest provides the pillion passenger with greater comfort.

620.12.027.000

TOPCASE 48 L

With 48 liters of storage space, this top case easily stows two full-face helmets. It makes use of a practical press-lock system and a combination lock for opening the cover and releasing the fastening. Carrier plate 601.12.927.044 is also required for mounting. Size: 61 cm x 46 cm x 31 cm.

750.12.919.000

TANK BAG

The ideal companion for every tour:

- » Manufactured from durable nylon, with abrasion-resistant edging made from reflective material
- » Extremely robust, all-round zip fasteners
- » Map pocket, individual compartments
- » Attached with sturdy soft ties
- » Max. volume 18 l
- » Included: tank bag, rain cover, shoulder strap

601.12.178.000

ZIPPER LOCK

Prevents nimble fingers from laying hands on your luggage! For use with 750.12.919.000, 600.12.978.000 and 756.12.978.100.

601.12.915.044

HELMET LOCK AND DRY BAG

This little package contains all you need for securing your helmet safely on your KTM. Steel cable, number lock and a waterproof bag for your helmet.

781.12.978.000 **NEW!**

UNIVERSAL REAR BAG 5 L

Stowage space for everything that needs to be readily to hand on tour, such as tools, drinks, mobile phone, etc.

- » Made from robust, rugged waterproof material; welded seams
- » Volume: 5 L
- » Fitting with supplied straps:
 - » On the vehicle rear end
 - » At the lashing eyes on the case lid
- » Case not included

601.12.078.000

LUGGAGE BAG

Complete duffel bag! The ideal solution for all those wanting to go on long or short tours from time to time.
 » Mounting straps included

603.12.978.044

03-12

EXTENDED CARRIER PLATE

Extra-large carrier plate, e.g. for transporting luggage rolls:
 » Ideal for transporting luggage bag 601.12.078.000
 » Not suitable for mounting a top case

600.08.008.100

03-12

TOURING WINDSCREEN

We recommend the touring windscreen for longer trips.

601.11.042.044

03-06

POWER OUTLET KIT

Necessary for models 03-06 when a power source is required for a navigation system or for any other use.

600.12.073.044

03-08

ROADBOOK HOLDER KIT

Durable, waterproof roadbook holder, including handlebar remote-control, on-board plug and installation materials. Illuminated roadbook housing, electrically powered with motor-braking. Roadbook format: A5, up to 80 pages.

602.12.092.060 *NEW!*

03-12

UNIVERSAL PLUG

Required for modifying the power supply cable of the navigation system in order to connect it to the power socket 601.11.042.044.

601.29.074.050

07-12

CHARGING CABLE

Special charging cable for the 990 ADVENTURE. Simply connect the 584.29.074.000 battery charger and the standard on-board electrical socket with the charging cable, and the starter battery is charged. Simple, but ingenious!

601.12.092.070

03-12

HANDLEBAR SUPPORT

Universally applicable option for mounting the GPS bracket or roadbook.

601.12.092.040
03-12

GPS BRACKET FOR TOMTOM RIDER

With this elegant lockable structure, your navigation system can be fitted to your motorcycle free from vibration. Apart from the classic means of fastening to the handlebar cross brace (601.12.092.070), which can be used on practically all models, a special bracket (601.12.092.050 or 601.12.092.150) is available for the 950/990 ADVENTURE, with which the navigation system is positioned ideally on the bike.

601.12.092.140
03-12

GPS BRACKET FOR TOMTOM RIDER2

As 601.12.092.040, but for the new TOMTOM Rider2.

601.12.092.080
03-12

GPS BRACKET FOR GARMIN ZUMO 550

As 601.12.092.040.

601.12.992.000 / 30
03-12

GPS BRACKET FOR GARMIN ZUMO 660

As 601.12.092.040.

760.12.992.044
03-12

UNIVERSAL GPS BASIC BRACKET

Simple fitting on every original KTM handlebar clamp by means of a cushioned support. Provides the opportunity of attaching an electric socket and securing the navigation system, together with its bracket, against theft. If you want to lock your sat-nav securely, you'll also need one of the PowerParts GPS brackets.

620.02.903.150
03-12

GPS/PDA BAG LARGE

Size: 170 mm x 130 mm x 35 mm. Keeps documents, maps, plus navigation and communication devices (e.g. mobile phone) in your field of view, dry and protected from vibration. Required for mounting: bracket 620.02.903.100.

601.12.092.050
03-08

MOUNTING FOR GPS BRACKET

Necessary for mounting the GPS brackets.

601.12.035.000

13 - 14

ALARM SYSTEM

The KTM PowerParts alarm has been tried and tested to be one of the best on the market.

The benefits at a glance:

- » Plug & play system – wiring harness ready for fitting
- » Fail-safe, dual-circuit immobilizer
- » Integrated microchip motion sensor
- » Stowage compartment under seat protected additionally with a reed switch
- » Two watertight, anti-scan radio transmitters with rolling code

Note:

- » Mounting kit 603.12.935.044 is required for installation.

603.12.953.000

13 - 14

DONGLE

The ABS dongle enables additional functions in the ABS control module and the ECU.

Available functions:

- » ABS mode "Off": ABS remains deactivated when the ignition is switched off and on again
- » "Bad fuel" mode: reduced engine power (72 kW) for riding in countries with lower quality fuel (85 octane)

The detailed, vehicle-specific functional overview is available from your KTM dealer.

603.12.935.044

CARBON CLUTCH COVER PROTECTION

Maximum protection for the clutch cover with a factory look:
 » Carbon-Kevlar design
 » 5 mm thick in concentrated areas to provide maximum protection

613.30.926.044

13 - 14

CLUTCH COVER

CNC-machined design made of high-strength aluminum.

HIGHLIGHT 2014

603.06.922.000

13 - 14

DUST PROTECTION KIT FOR INTAKE SYSTEM

Recommended for offroad use in regions with high sand and dust levels:
 » Simple fitting and cleaning

610.12.932.000

13 - 14

RADIAL ROADLOK

The patented RoadLok technology provides best possible anti-theft protection due to the system being permanently mounted on the frame. Bolted directly on the brake caliper, the Roadlok becomes one with the bike. When the Roadlok is closed, a specially hardened bolt slides directly into the holes in the brake disc, completely preventing any movement when the system is engaged. Compared with conventional brake disc locks or chains, this eliminates the risk of falling when heading off as a result of forgetting to unlock the locking device. The Roadlok cannot be used with wave disc 611.09.960.000.

USER SETTING TOOL

With the help of this state-of-the-art combination of hardware and software, fine adjustment of the injection is easier than ever before. Once the bike is connected to a laptop via the adapter, tuning of the injection according to environmental conditions and personal riding preferences is really simple. The clearly organized editing software allows precise adjustment of the mix to the respective engine speed and load ranges. An additional feature is the logging function of the adapter, which allows recording of all the relevant engine data during a lap. Using these values, creation of a mapping tuned specifically to the track is no longer a problem.

690.05.283.100 TITANIUM CLOSED COURSE USE ONLY
RC8 08-10

SILENCER EVO 1

This Superstock racing exhaust system has been specially designed for the RC8. Thanks to the experienced Akrapovic Racing Division that helped in developing this system, rideability has been optimized even further. As the name suggests, this feast for the eyes in titanium is designed for the track. The system is supplied with removable noise reduction inserts for use on racetracks that have less noise restrictions. Fitting only possible in combination with the matching Titanium header! For racetrack use, we recommend the outer clutch hub 691.32.001.044!

CLUB RACE KIT
The Club race kit is not only the perfect choice for ambitious visitors to racetrack training sessions, but also for RC8 R riders in various amateur racing series. The performance of the powerful V2 engine can be increased with very little effort. The use of a specially developed, high quality Akrapovic EVO 4 sports exhaust system in conjunction with a special air filter and corresponding mapping results in a significant increase in performance. Due to the low number of changes and the well thought out engine design, installation of the Club Race Kit can be carried out by any official KTM dealer in a matter of hours. Including Akrapovic EVO 4 system.

690.06.915.100 CLOSED COURSE USE ONLY

RACING AIR FILTER
Let your engine breathe more freely; it will thank you with improved performance.

690.32.900.000 RC8 08-10

SLIPPER CLUTCH
This anti-hopping clutch is a must for every ambitious biker. Everyone knows the horrible feeling of rear wheel hopping. From time to time, heavy braking can lead to nerve-racking shuddering at the rear wheel. The solution to this problem: the slipper clutch. It has been developed for use on the racetrack and may contribute to increased wear of the clutch linings.

691.32.900.000 RC8 R 08-14

ANTIHOOPING SLIPPER CLUTCH
As 690.32.900.000, but with stiffer clutch springs.

610.12.932.000

RC8 08-11
RC8 R 09-12

RADIAL ROADLOK

The patented RoadLok technology provides best possible anti-theft protection due to the system being permanently mounted on the frame. Bolted directly on the brake caliper, the Roadlok becomes one with the bike. When the Roadlok is closed, a specially hardened bolt slides directly into the holes in the brake disc, completely preventing any movement when the system is engaged. Compared with conventional brake disc locks or chains, this eliminates the risk of falling when heading off as a result of forgetting to unlock the locking device. The Roadlok cannot be used with wave disc 611.09.960.000.

690.12.019.000

TANK BAG

The tank bag developed especially for the RC8 fits in perfectly with the chiselled image of our superbike. The combination of inherently stable foam and textile fibers results in a creative design and highest levels of form stability. The supplied map pocket is mounted in a matter of seconds. Includes a waterproof inner bag.

601.12.178.000

ZIPPER LOCK

Prevents nimble fingers from laying hands on your luggage! For use with 690.12.078.000 and 690.12.019.000.

690.12.007.000

PROTECTIVE COVER INDOOR

No hope for dust, scratches, etc. thanks to the indoor bike cover specially tailored to the lines of the RC8! The fabric consists of a special material that is completely impermeable to dust and dirt. The inside has a soft lining.

690.12.078.000

REAR BAG

This practical rear bag accurately follows the shape and lines of the rear of the RC8 and no add-on parts at all are required to fasten it! The bag is simply connected and locked to the existing locks instead of the pillion seat. Small items, such as mobile phone, wallet, keys, etc., are taken care of perfectly. Volume: approx. 10 l.

FOLDABLE AND ADJUSTABLE BRAKE LEVER

613.02.931.044
SUPER DUKE R 14

FOLDABLE AND ADJUSTABLE CLUTCH LEVER

- » CNC-machined from high-strength aluminum
- » Tough black/orange anodized surface finish
- » Lever can fold away upwards in the event of a crash
- » Adjustable lever reach
- » Adjustable lever length

690.02.942.044

FOLDABLE CLUTCH LEVER KIT

690.13.950.044

FOLDABLE BRAKE LEVER KIT

In the event of a minor crash, this lever folds away instead of breaking off.

613.12.905.033
SUPER DUKE R 14

STEERING DAMPER KIT

Adjustable steering damper to fit your personal riding style. Helps keep the front wheel stable under acceleration.

- » High-end WP Suspension steering damper (tested in AMA SuperBike)

» Damping adjustable in 30 clicks

Kit includes:

- » Mounting kit 613.12.905.044
- » Steering damper 16181L01S

HIGHLIGHT 2014

613.07.940.000
SUPER DUKE R 14

ERGO SEAT

New styling, greater comfort and more support.

- » Optimally tuned to the design of the KTM 1290 SUPER DUKE R
- » Optimized shape: narrower at the front for better control thanks to more contact with the vehicle
- » Special foam (3D structural mesh) with inbuilt tunnel form for even pressure distribution
- » Seat height + 20 mm

613.07.947.000
SUPER DUKE R 14

PILLION ERGO SEAT

A perfect match for the rider's Ergo seat.

613.07.940.044

SUPER DUKE R 14

PILLION SEAT COVER

Racing look in a matter of seconds; no tools required.

The racing look is completed perfectly with:

- » Carbon silencer bracket 613.05.984.000
- » Akrapovic slip-on silencer 613.05.979.000/
- » Akrapovic Evolution complete system 613.05.999.000

610.12.932.000

SUPER DUKE R 14

RADIAL ROADLOK

The patented RoadLok technology provides best possible anti-theft protection due to the system being permanently mounted on the frame. Bolted directly on the brake caliper, the Roadlok becomes one with the bike. When the Roadlok is closed, a specially hardened bolt slides directly into the holes in the brake disc, completely preventing any movement when the system is engaged. Compared with conventional brake disc locks or chains, this eliminates the risk of falling when heading off as a result of forgetting to unlock the locking device. The Roadlok cannot be used with wave disc 611.09.960.000.

613.09.960.000

SUPER DUKE R 14

WAVE BRAKE DISC 320 MM

Whether it be punishing missions on the racetrack or touring with passenger and luggage, our WAVE brake discs supply the same high level of deceleration in every situation with outstanding controllability.

- » Brake disc outer ring: rustless, high-performance brake steel
- » Black anodized aluminum inner ring
- » Floating mounting: no distortion, no brake judder
- » No fading, consistent braking performance at the highest level
- » More braking power (+ 25 % braking power) thanks to materials from the world of superbike racing
- » Less hand force for the same braking power

613.09.999.000

SUPER DUKE R 14

RIM STICKER SET

- New, three-colored design
- » Set for front and rear wheel
- » Pre-cut stickers

613.09.945.000

SUPER DUKE R 14

FRONT ENGINE GUARDS

Helps protect the fork from damage in the event of a minor crash.

613.03.945.044

SUPER DUKE R 14

FRAME ENGINE GUARDS

Even a "beast" needs protection. The frame protector is incorporated perfectly into the design of the KTM 1290 SUPER DUKE R

- » Developed and tested with the KTM 1290 SUPER DUKE R
- » No contact with the ground for fuel tank, engine or fairing parts in the event of a minor crash
- » Replaceable crash pad
- » Manufactured from high-grade die-cast aluminum
- » High quality, durable, powder coating in original KTM 1290 SUPER DUKE R orange

613.01.999.044 / 04
SUPER DUKE R 14

TRIPLE CLAMP "RACE"

CNC-machined aluminum triple clamp for pure race feeling.

- » Manufactured from high-strength aluminum
- » High quality, orange anodized surface finish
- » Stiffer than the standard triple clamp
- » More precise handling in hard braking maneuver
- » Less fork wear in the clamp area, thanks to better pressure distribution

613.08.947.000
SUPER DUKE R 14

RACE SEAT

- The PowerParts race seat supplies you with the following benefits:
- » Fiberglass race seat with approx. 2 cm more seat height
 - » Narrower contour for greater freedom of movement, better contact with the fuel tank for more control and easier hanging off
 - » A more direct feel for your bike and the road surface
 - » An absolute must for every ambitious hobby racer
 - » Simple fitting to existing mounting points
 - » Supplied primed

613.07.908.000
SUPER DUKE R 14

RACING FUEL CAP

Refuelling like the professionals: keyless and extremely quick.

- » Machined from high-grade aluminum with an anodized surface finish
- » Not lockable

SUPER DUKE R 14

REVERSE GEAR CHANGE KIT

Can only be used in conjunction with rear set 613.03.937.044.

613.03.937.044
SUPER DUKE R 14

ADJUSTABLE REAR SET

Are you seeking complete control of your bike and perfect ergonomics for your legs? Coupled with racing looks, this is what our CNC rear set offers:

- » Fully adjustable rear set
- » 5 foot peg positions => 20 mm lower and higher/ 25 mm forwards and backwards from the standard foot peg position
- » CNC-machined from high-grade aircraft aluminum
- » Premium quality, hardwearing anodized surface finish
- » Inverted shifting scheme possible with 613.34.930.044

613.11.946.044
SUPER DUKE R 14

SIDE STAND REMOVAL KIT

- Is your "beast" READY TO RACE? All unnecessary weight can stay in the garage when you head off for weekend race training – including the side stands.
- » Contains all parts required for removing the side stand
 - » Adapter cable for the side stand switch prevents malfunctions in the vehicle electronics
 - » Ideal accessory for 613.29.955.000 rear wheel stand for single-sided swingarm

613.05.922.044
SUPER DUKE R 14

SECONDARY AIR SYSTEM REMOVAL KIT

- Contains all parts required for removing the SAS system. Fitting only in combination with special mapping and Akrapovic complete system:
- » Akrapovic Evolution complete system 613.05.999.000 (1290 SUPER DUKE R)

1290 SUPER DUKE R **NEW!**

750.12.919.000
SUPER DUKE R 14

TANK BAG

The ideal companion for every tour:

- » Manufactured from durable nylon, with abrasion-resistant edging made from reflective material
- » Extremely robust, all-round zip fasteners
- » Map pocket, individual compartments
- » Attached with sturdy soft ties
- » Max. volume 18 l
- » Included: tank bag, rain cover, shoulder strap

613.12.928.000
SUPER DUKE R 14

REAR BAG LARGE 24-36 L

The ideal solution for short trips or the daily ride to work.

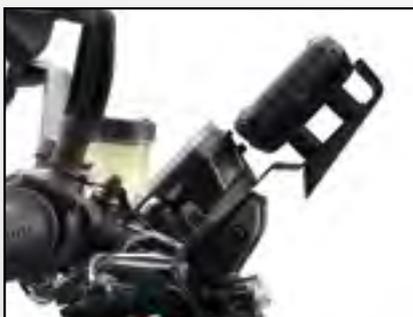

- » Volume: 24 l-36 l
- » Including rain cover
- » Strap attachment to the pillion seat or the carrier plate

613.12.978.000
SUPER DUKE R 14

REAR BAG SMALL 10-30 L

Small items, such as mobile phone, wallet, keys, etc., are taken care of perfectly. Simple fitting with straps on the pillion seat. The benefit: No difficult-to-fit carriers that spoil the slender rear profile of the bike. With the rear bag attached, the bike can only be used as a single seater. Capacity 10 l-30 l.

613.12.992.044
SUPER DUKE R 14

MOUNTING FOR GPS BRACKET

Universal mounting for all original Garmin GPS brackets.

613.12.925.044
SUPER DUKE R 14

SIDE BAG CARRIER

Innovative side bag carrier: virtually invisible with side bags removed.

613.12.925.000
SUPER DUKE R 14

SIDE BAG SET

Our newly developed and styled side bags provide sufficient stowage space for both short weekend tours and long holiday tours.

- » Integrated perfectly into the vehicle design
- » No restrictions for the passenger; sufficient space for their legs
- » Volume per side: 18 l
- » Includes waterproof inner bags
- » Side bag carrier 613.12.925.044 not included

BUILT FOR WINNERS

> WP COMPETITION CARTRIDGE KIT

The WP Competition Cartridge kit offers best performance for race-oriented motorcyclists and professional racers. Individual adjustable damping characteristics through fully adjustable compression and rebound damping.

- Retrofittable closed cartridge technology
- Individual tunable to drivers demands
- Fully accessible adjustment units
- Provides best performance in every situation
- Improved response due to friction optimized components
- Perfect in combination with WP Super Competition rear shock

> SAME PRODUCTS USED BY

KTM HMC FACTORY RACING

> WP SUPER COMPETITION SHOCKS

WP Super competition shocks are factory pre-set based on the factors of rider, riding ability and area of use. This is the basis for a wide setting range which provides almost limitless possibilities for individual adjustment

- Newly developed SCS Big Valve system
- High-Speed damping adjustable
- Low-Speed damping adjustable
- Adjustable rebound
- High Pressure gas-filled damping system
- Friction-optimized bushes and seals
- Adjustable length

HOW TO ORDER

These parts are only available directly via WP Authorized Centers. To find the right part number for your bike, visit the suspension configurator at www.wp-group.com or find your local dealer at www.wp-group.com/en/dealers

KTM TOOLS

- » AKRAPOVIC EVOLUTION COMPLETE SYSTEM (613.09.999.000)

773.12.030.000

FOOT PUMP

Small and light, so very portable – saves the day in the event of a puncture on the move! Mini-footpump with pressure gauge on the swivelling valve head that fits all prevalent valves. Integrated double-cylinder with pressure switch-over to high pressure. Maximum 12 bar. Height: approx. 170 mm folded together.

548.29.068.000

TIRE GAUGE

Easy to use! Measuring range 0 - 60 PSI. Clamping head rotatable through 90° on a flexible stainless steel feed line. The valve shaft is therefore accessed easily and quickly. Very accurate measurements by way of a durable internal membrane. Internal pressure is reduced after use by a relief valve (push button).

773.29.068.000

DIGITAL TIRE GAUGE

Comfortable and easy to use. Fits all standard valves. Pressure display in bar or psi. Integrated pressure release valve for accurate pressure adjustment. Disengageable display and work area lighting. Energy-saving function with automatic cut-off. Maximum measuring pressure: 160 PSI

777.10.976.150 / 04

VALVE CAP SET

777.10.976.050 / 04

VALVE CAP SET

Orange anodized valve caps with valve opening function.

584.29.074.000

BATTERY CHARGING AND TESTING UNIT

A must for every workshop/garage. Test, charge and keep batteries fresh really easily. Fully automatic and protective battery charging thanks to a programmed charging curve. Clearly arranged LCD display shows the charging level. Reverse polarity, short-circuit and overload protection. UK adapter: 584.29.074.001, AUS adapter: 584.29.074.002.

584.29.074.200

BATTERY CHARGER

Battery charger with test function.

Plus:

- » Constant current charging
- » Constant voltage charging
- » trickle charging

Includes cable for fixed installation on the battery and plug for connecting the battery quickly to the charger.

760.11.953.000

ALL LC4 MODELS

693.11.953.000

ALL LC8, RC8 MODELS

LITHIUM ION BATTERY

Our lithium ion batteries offer the following advantages:

- » Only approx. 1/3 of the weight of the comparable lead-acid battery
- » Unbeatable cost/weight-saving ratio
- » Installable in any position as they contain no acid
- » Contains no heavy metals
- » Quick charging possible with high charging current (up to 90% in 6 min)
- » Very low self-discharge (max. 5% per month)
- » Reliable technology and long service life

451.29.075.000

REV COUNTER

For 2-stroke and 4-stroke engines, displays up to 16,000 1/min.

U695.1130

CABLE TIES ORANGE

100 x, length: 20 cm.

TOOLS

595.12.030.200

EXHAUST PLUG

Keeps water out of the silencer during cleaning. For internal diameters 37 mm - 62 mm.

595.12.030.000

EXHAUST PLUG

Keeps water out of the silencer during cleaning. For internal diameters 15 mm - 38 mm.

772.31.997.000 / 04 **CLOSED COURSE USE ONLY**

VENT HOSE

Fuel-proof for tank and carburetor venting, approx. 3 m. Should only be used for venting purposes and not as a connection between tank and carburetor.

812.12.016.000

FUEL HOSE WASH CAP SET

Use highly recommended when washing the bike thoroughly; in other words, when the fuel tank is removed. Prevents water from entering the fuel line.

780.29.063.000

MEASURING CUP 1000 ML

1 l Volume. With scaling for both the fluid level and different mixture ratios. Perfect for changing the oil and for preparing larger quantities of 2-stroke mixture in the canister. Simple handling thanks to the ergonomic design.

780.29.062.000 / 30

MAGNETIC BOLT PAN

Magnetic. Never lose a bolt again!

U695.1409

MAGNETIC BOLT PAN

Magnetic bolt pan; a great help in all types of work on your bike.

510.12.093.000 **LONG**

510.12.092.000 **SHORT**

TIRE LEVER

There's racing experience here as well! Practical tire iron – short version ideal for the portable tool bag. Long version for minimum effort.

781.29.983.000

TIRE LEVER SET

Made from high-strength, orange-anodized aluminum; not suitable for fitting tires with mousse. With integrated ring spanners SW 32 mm, 27 mm, 13 mm and 10 mm.

590.29.050.000

FUNNEL

Funnel specially developed for KTM motorcycles. Diameter (small and large) optimized to suit the filler neck; special groove for optimum ventilation.

U695.1562

PLASTIC DRUM

18 l, KTM orange plastic drum for use on the racetrack. Complete with flexible hose and screw cap.

583.10.025.000

WHEEL ALIGNMENT GAUGE

The ideal tool for checking perfect wheel position when tensioning the chain.

503.05.017.000 / 04

SPRING HOOK

Simple spring removal.

FEELER GAUGES

000.29.098.000

TOOL BOX

38-piece, 1/4" toolbox in orange with high-quality, chrome-vanadium tools. Complete your everyday maintenance tasks quickly and easily.

Volume:

- » Ratchet (with locking device), lever, two extensions and socket wrench
- » Hexagon sockets from 4 to 14
- » Allen keys from 3 to 8
- » Phillips, slotted and Torx bits

000.29.098.100

TOOL BOX

60-piece, 3/8" toolbox in orange with high-quality, chrome-vanadium tools. Complete your everyday maintenance tasks quickly and easily.

Volume:

- » Ratchet (with locking device), lever, two extensions and socket wrench
- » Hexagon sockets from 6 to 24
- » Allen keys from 3 to 10
- » Phillips and slotted bits
- » Torx bits from 15 to 55

U695.1126

SPOKE TORQUE WRENCH

On this spoke wrench, the torque is preset at 5.4 Nm. This prevents over-tightening of the spoke nipples. Too much torque when tightening the spoke nipples is the most frequent cause of broken spokes. Wrench size 6.8 mm.

579.29.020.000

5/8 X 1/4

CHAIN BREAKER

000.29.098.200

SCREWDRIVER SET

High quality, 5-piece screwdriver set in the KTM design.

610.12.016.000

BRAKE LOCK

Practical help when loading the bike or jacking it up with the rear wheel lifting device.

601.12.002.000

TRANSPORT HARNESS STREET

This new transport harness is quickly attached to your street bike's handlebar. Together with the KTM soft ties, your bike is perfectly secured on the way to the next racetrack. The plastic handlebar mountings are extremely robust and equipped with a special plastic insert to prevent damage to the handlebar.

600.12.016.000

HIGH SECURITY U-LOCK

High-quality U-lock made from hardened steel with a double locking mechanism. Locking cylinder with optimum protection against any attempts at manipulation. 250,000 key versions. Two keys supplied as standard. Includes rotating PVC cover that protects the cylinder lock from dirt. High quality corrosion protection.

- » Mounting kit available for 690 SM / SMR / DUKE 765.12.962.044 (pg.30)

775.12.950.100

SOFT TIES

The tough KTM soft ties allow the bike to be secured without scratching the handlebar or the fuel tank. Made from durable ballistic nylon, they have a load-bearing capacity of 280 kg. Dimensions: 3.8 cm x 0.6 m.

775.12.950.000

SOFT TIE DOWNS WITH HOOKS

2 units. High-quality soft ties with rubberised fastening hooks and handlebar loops. In the KTM colors orange/black with KTM PowerParts logo.

000.29.901.000 **NEW**

BEAD BUDDY

The Bead Buddy acts as your third hand when fitting tires. Holds the tire in the tire bed, thereby making tire fitting much easier. Simply hook it into the spokes and away you go. Particularly recommended for tire fitting with mousse.

000.62.030.059 **NEW**

TURBO WIPES CLEANING TOWELETTE

Always at hand, practical and highly effective! The Turbo cleaning wipes remove unhardened sealant, oil, most adhesives, colors and lubricants from hands, tools and surfaces.

000.62.030.050 **NEW**

SCREW LOCKING

Degrease and clean parts with KTM power cleaner before use; contents: 50 ml.

548.12.016.000 **NEW**

SAFETY WIRE

200 m Wire with 0.61 mm diameter.

000.29.015.000 **NEW**

WIRE PLIERS

Recommended, very practical, high quality tool to help you twist safety wire 548.12.016.000 like a professional.

000.62.030.051

GRIP GLUE 20 G

A firm hold for your grips.

LOCTITE 243 BLUE 6 CCM

000.62.030.058 **NEW**

REPAIR KIT 56 G

The repair kit is a two-component, epoxy resin adhesive. Hardens at room temperature, (accelerated hardening possible by raising temperature). Use: Particularly suitable for steel, but also for other metals, wood, concrete, ceramics, glass and most plastics. The steel bond is resistant to, oil, petrol, diesel and battery acid. The repaired part can be used again after as little as 60 minutes. The surfaces to be glued must be dry and free from dust and grease.

000.62.030.056 **NEW**

POWER GLUE 25 ML

The power glue is extremely resistant to impact, peel, tensile stress and weather. It can withstand temperatures from -40 to +40°C, it is resistant to grease, oils, fuels, water and much more, quick to fix plastic and metal parts and does not require any extensive surface preparation.

000.62.030.057 **NEW**

CARBON GLUE 25 ML

The mixture ratio is automatically regulated in the carbon glue. For repairing plastic and carbon parts, ready for further rework after only approx. 10-30 minutes. Extremely high strength, temperature resistant from -40 to +140°C, resistant to greases, oils, fuels, water and many more.
